

LELAND POWELL

SPECIALTY ENGINEERED FASTENING SOLUTIONS

COMPANY PROFILE

Located in Martin, Tennessee, Leland Powell Fasteners was founded on one simple principle—to produce high quality fasteners at a competitive price from standard to unique applications, with robust quality planning, and complete customer satisfaction. Equipped with state-of-the-art technology, we offer domestically manufactured specialty fasteners in a wide range of carbon and alloy steel and serve many different markets such as recreational transportation, lawn and garden, furniture, and consumer goods.

QUALITY ASSURANCE

Leland Powell is committed to the highest levels of fastener manufacturing. Our certifications, in conjunction with our experienced team and quality control program, ensure that we are consistently exceeding your requirements and providing you with the finest product available. After all, we are not just suppliers but partners for our customers.

LELAND POWELL

Materials & Finishes

Equipped with state-of-the-art technology, Leland Powell offers domestically manufactured specialty fasteners in a wide range of carbon and alloy steel which include:

Materials

Alloy 4037
Alloy Steel
Aluminum
Boron 10B21
Low Carbon 1006
Low Carbon 1008
Low Carbon 1010
Low Carbon 1022
Medium Carbon 1038

Finishes

Zinc - Clear
Zinc - Yellow
Zinc - Trivalent Yellow
Zinc - Black
Zinc - Trivalent Black
Magni
Phos & Oil
Phos & Wax
Clean
Clean & Oil

Branded Products

Manufacturing today is more competitive and cost conscious than ever, which is why we produce fasteners that provide you with cost savings & quality performance.

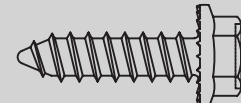

Lo-Driv

A unique point and body design improve the speed of assembly, reduce operator fatigue and strip-out problems, and eliminate the need to pretap holes and cross threading.

Grip-Lite

Designed specifically for thin sheet metal applications and provide a tight assembly with increased strip-out torque improving joint strength, with a radius point for safety.

ELGIN FASTENER GROUP

The Elgin Fastener Group (EFG) is the leading provider of system-critical engineered fastening solutions serving blue-chip wholesalers and distributors. Comprised of a family of 8 domestic manufacturers and metal finishers, our plants offer hot forging, open and closed die cold forming, and wire form products that make us the leading single source supplier of specialty engineered fastening solutions in North America.
